

Technical Data Sheet

Cryogenic Protective Apron (Anti-Liquid Nitrogen)

Parameter	Specification
Application	Protection against liquid nitrogen splashes
Outer Material	Water-resistant nylon composite
Insulation	Multi-layer thermal insulation
Color	Blue
Temperature	Suitable for intermittent splash protection to approx. -196°C
Design	Adjustable neck and waist straps
Reuse	Reusable
Cleaning	Wipe clean and air dry

Features

- Lightweight and flexible
- Waterproof outer layer
- Quick-release straps
- Designed for cryogenic liquid splash protection only (not immersion).
